### ***Allowable Subject Matter***

Claims 1 – 27 and 43 – 44 are allowed. The following is an examiner's statement of reasons for allowance: As stated in the previous office action, prior art, either alone or in combination, fails to teach an assembly for use in continuously forming a plurality of lengths of flexible noise attenuating cutting line where the assembly is comprised of a breaker plate disposed in a lower portion of said chamber, said plate defining an upwardly projecting conical inner portion and a substantially planar outer portion, said inner portion directing molten monofilament from said channel downwardly and outwardly. The closest prior art reference of Machuque (U.S. 4,217,083) teaches a breaker plate; *however, the plate does not define an upwardly projecting conical inner portion, said inner portion directing molten monofilament from said channel downwardly and outwardly onto said outer portion.*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
